

The **Spartan Universal Blasting Station** was designed by sandblasters for sandblasters to **reduce operating costs** and **maximize efficiency and productivity** for sandblasting operations.

SAVE YOUR BACK AND THOUSANDS OF DOLLARS!

SAVE UP TO 25% ON YOUR MEDIA COSTS

Eliminate heavy and expensive individual media bags by switching to bulk media.

Designed for the use of 5,000 pound/1.7 yard bulk super-sack media.

SAVE OVER \$5,000 PER YEAR ON LABOR

Load a super-sack with a forklift into the UBS bin and blast all day.

No more stopping every hour to manually load heavy media bags by hand.

Save over 350 hours of labor per year!

THE UBS PAYS FOR ITSELF!
